### The Old Man in the Village

An old man lived in a village. He was one of the most unfortunate people in the world. The whole village was tired of him, he was always gloomy, he constantly complained and was always in a bad mood.

The longer he lived the more angry he was becoming and the more poisonous were his words. People avoided him, because his misfortune became contagious. It was even unnatural and insulting to be happy next to him. He created the feeling of unhappiness in others.

But one day when he turned 80 years old, an incredible thing happened, Instantly everyone started hearing a rumor.

The old man is happy today. He doesn't complain about anything, smiles, and even his face is freshened up.

The whole village gathered together and asked the old man what happened to you?

The old man replied: "Nothing special, Eighty years I've been chasing happiness, and it was useless. And then I decided to live without happiness and just enjoy life. That's why I'm happy now!"

Moral of the Story: Don't Chase Happiness, Enjoy your Life
